Banner wins two Green Apple Awards

Banner has won two Green Apple Awards for Environmental Best Practice, and will have the opportunity to represent the UK in the European Business Awards for the Environment.

A Green Apple was awarded for the Banner Green Guide, available online at www.banner-online.biz, which features over a thousand environmentally preferred products from the Banner Globe & Tick™ range. The 2009/2010 Banner Green Guide focuses on sustainable procurement, and showcases the recycling and disposal services available from Banner.

A second Green Apple has been awarded for the Company's Green OPTIMISA™ system, which is designed to measure the environmental impacts of purchasing and identify areas for improvement.

The awards will be presented at the House of Commons later this year. The winning entries will go forward for selection to represent the UK at the 2010 European Business Awards for the Environment in Brussels.

The Green Apple Awards are now in their sixteenth year and are organised by The Green Organisation, an independent, non-political, non-activist, non-profit environment group dedicated to promoting environmental best practice. It is an accredited feeder scheme into the European Business Awards.

Notes for Editors
